	20.02.2016	21.04.2017

Istanbul Bilgi University Turkish Language Teaching and Research Center is starting Turkish Courses designed for all international students currently living in Turkey. Analytical methods on sound and structure as well as interactive applications for speech practice are the blueprints of the program. The participants will be able to begin their higher education through the acquired Turkish language abilities as they experience the city and college life intertwined through BİLGİ's campuses in the city centre.
